Education

University of California, Berkeley — Berkeley, CA
B.A. Computer Science, College of Computing, Data Science and Society — *Aug. 2026 – May 2028 (Expected)*

De Anza College & Foothill College — Cupertino, CA
A.S.-T Computer Science, A.S.-T Mathematics, A.A. Liberal Arts — *Sep. 2023 – June 2026*

- Dean's List every eligible term. Relevant coursework: Data Structures & Algorithms (C++), Systems Design, Operating Systems (Unix/Linux), Discrete Math, Linear Algebra, Data Science.

Skills

Languages: C++, C, Python, Java, SQL, JavaScript, HTML/CSS
Frameworks & Libraries: PyTorch, JavaFX, React, Tailwind CSS
Developer Tools: Git, GitHub, Unix/Linux, Raspberry Pi, VS Code
Collaboration: Microsoft Office, Google Workspace, Zoom, Slack
Concepts: Data Structures, Algorithms, Systems Design, Computer Vision, Model Training, REST APIs

Related Projects

Wearable Memory-Assist Device, Infineon | *Python, PyTorch, C++, Raspberry Pi, Infineon PSoC 6* — Fall 2025

- Built a wearable camera device for users with dementia, Alzheimer's, and visual impairment that identifies approaching people in real time and announces each person's name and relationship
- Trained a facial recognition model from scratch, integrated camera, model, mobile app, and a PSoC 6 gesture trigger into one system on Raspberry Pi, and enabled live face enrollment

StarVest | *Python, REST APIs* | DAHacks 3.0, Top 4 of 40+ Teams — Fall 2024

- Built the backend and third-party API integrations for an accessible decision-support tool for farmers
- Taught teammates new to programming and debugged overnight to ship a working demo, placing top 4 of more than 40 teams

Leadership & Experience

Fung Fellow, Fung Fellowship — Aug. 2026 – Present
University of California, Berkeley x Kaiser Permanente — *Berkeley, CA*

- Selected for Berkeley's project-based health-technology fellowship; collaborating on a supplemental-benefits solution for Kaiser Permanente serving the under-24 population

CIS Lab Tutor & Peer Mentor — Sep. 2024 – June 2026
De Anza College — *Cupertino, CA*

- Guide a wide range of students through programming assignments with step-by-step reasoning; designed a functions workshop instructors now repeat each quarter
- Trained and mentored 40+ teams as a DAHacks organizer and CalHacks volunteer, running workshops on problem-solving and hackathon strategy

President, Iranian Student Association — Sep. 2024 – June 2026
De Anza College — *Cupertino, CA*

- Rebuilt an inactive club into an active community by defining officer roles, delegating and coordinating work across the team, resolving conflicts, and organizing cultural events, growing membership and attendance substantially

Vice President, Competitive Programming Club — Sep. 2024 – June 2026
De Anza College — *Cupertino, CA*

- Ran weekly contests and algorithm workshops, helped organize ICPC teams, and independently arranged a speaker event with a De Anza professor working in AI/ML at Google

Language Arts Lab Assistant — Sep. 2023 – June 2024
De Anza College — *Cupertino, CA*

- Tested and documented new lab software over several months, supported its rollout across the department, and wrote the instructor manual staff relied on while troubleshooting issues for students and faculty
